Todd Whipple of HLW Engineering was present to update the Commissioners on the process being pursued to move toward an environmental covenant with the DNR, which would eventually eliminate the need for engineering services and some diagnostic work and save the County costs in the future. The monitoring wells would ultimately be plugged. Paperwork will be submitted in January to make a request, with an inspection by the DNR expected in April.

Manager Brown indicated that garbage drop off has been sporadic. Metro Solic Waste will pick up hazardous materials on Monday.

The resolution will be on the Board of Supervisor Agenda 12/23 to be adopted and signed by the Chm.

The meeting was adjourned at 7.34 on a motion by Juchems and seconded by Eberline.
